As a part of several NGOs ever since primary school I learned how to work with and lead people. I have led several small and medium teams where I learned how to treat people, how to communicate clearly and efficiently, solve problems and be devoted to goals. Through my martial arts training I also learned to identify my boundaries and how to seek help when I cross them.

Every year, during the Puračić fair, I work as a waiter for a friend who has a restaurant in Puračić

BIG BEST Company LLC | Field Commercialist for Tuzla area | February 2014 - March 2014

I worked as a field commercialist for a interesting company where I was the youngest employee and where, for the short time I worked there, I learned a lot and where I implemented several new methods, some of which are still in use. Collaboration unfortunately terminated because of private, non-work-related causes
